Pre-Appointment Forms
Antonie Kline. MD
Harvey Institute for Human Genetics
Greater Baltimore Medical Center

Dear Family,

Thank you for your interest in an appointment with Dr. Antonie Kline. We look forward to meeting you and your child. In the meantime, we ask that you complete the following forms so that we can be prepared for your child's appointment. Please complete as much information as possible. If you have any questions or concerns, please feel free to contact us at 443-849-3131, opt 4 then opt 1.

INSTRUCTIONS:

1) If you type directly into this form, you need to use Adobe software. If you have an Apple computer, DO NOT use the default Apple PDF reader software. You need to use Adobe reader to open and complete this form, otherwise the form comes back blank to us.

2) Please complete these forms to the best of your ability. Once you have completed the forms, please send them back for review.

Completed questionnaires can be returned by:

1. **Mail to:** Dr. Antonie Kline; 6701 N. Charles St, Ste 2326, Baltimore, MD 21204
2. **Fax to:** 443-849-2919 (Attention: Dr. Antonie Kline).
3. **E-mail:** clinicalgenetics@gbmc.org

3) Once we receive your completed forms, we will contact you to schedule an appointment and we will request your child's medical records. If an emergent appointment is needed, we can schedule the appointment before receiving these completed forms.

FREQUENTLY ASKED QUESTIONS:

1) What happens during the appointment?
The initial visit usually lasts about 90 minutes. You will meet with Dr. Kline and one of the genetic counselors. We will review your child's medical and family history and examine your child. With your permission, photographs may be taken. At the end of the visit, all findings are reviewed with you and recommendations are made. The referring physician is contacted immediately by fax or telephone if urgent, and subsequently receives a written summary of the visit, a copy of which is also sent to you.

2) Why should we come for a genetics evaluation?
Your doctor has identified a medical, physical, developmental, and/or behavior difference in your child compared to his/her peers. The genetic evaluation will help identify if this could be genetic in your child or inherited from the family. This would be useful to know from the diagnosis and management point of view.

3) Will there be genetic testing?
Genetic testing may be recommended to diagnosis or rule out a genetic condition. Other testing may also be recommended. Most testing is done by obtaining a blood or cheek swab sample. This will be reviewed at the visit.

4) Could any of this affect our future children or our other children?
If we can diagnose a genetic condition in your child, then we will be able to give you very specific information about the chance of recurrence for your future children and/or other family members. If not, we can often offer empirical risks, or an educated guess about the chances of recurrence in the family.

Authorization for Release of Protected Health Information (Continued)

Authorization for release of Genetics records covers only the treatment for the dates specified above. I understand that authorizing the disclosure of this health information is voluntary. I need not sign this form in order to assure treatment. I understand that I may inspect the information to be used or disclosed, as provided in 45 CFR 164.524.

I the undersigned, have read the above and authorize the staff of the disclosing facility to disclose such information as herein described. I understand that this authorization may be withdrawn by me at any time except to the extent that action has been taken in reliance upon it. I acknowledge that the material authorized for release may contain alcohol, drug abuse, psychiatric, HIV testing, HIV results, or AIDS Information. I understand that disclosure of health information to a party other than the one(s) designated above is forbidden without additional authorization on my part. I understand that health information used or disclosed pursuant to this authorization may be subject to redisclosure by the recipient unless the health information is protected under federal confidentiality rules 42 CFR Part 2. This facility is released and discharged of any liability, and the undersigned will hold the facility harmless for complying with this "Authorization for Release of Confidential Information".

Prohibition on Redisclosure: This Information has been disclosed to the listed Individuals from records protected by federal confidentiality rules (42 CFR Part 2). The federal rules prohibit the listed individuals from making any further disclosure of this information unless further disclosure is expressly permitted by the written consent of the person to whom it pertains or as otherwise permitted by 42 CFR Part 2. A general authorization for the release of medical or other information is NOT sufficient for this purpose. The federal rules restrict any use of the information to criminally investigate or prosecute any alcohol or drug abuse patient.

This authorization will expire one year from the date signed below unless specific expiration event or condition is named here: _____

Signature of Patient: _____ Date: _____

Signature of Parent, Guardian, or Authorized Representative: _____

Printed Name of Parent, Guardian, or Authorized Representative: _____

Date: _____
