

How to Navigate Cochlear Care Companion in MyChart

Care Companion has been created to share valuable information with you that will help you along your cochlear implant journey. Your MyChart will notify you if you have any items assigned. These items will be saved in your personal library for your convenience. You will find step by step instructions below.

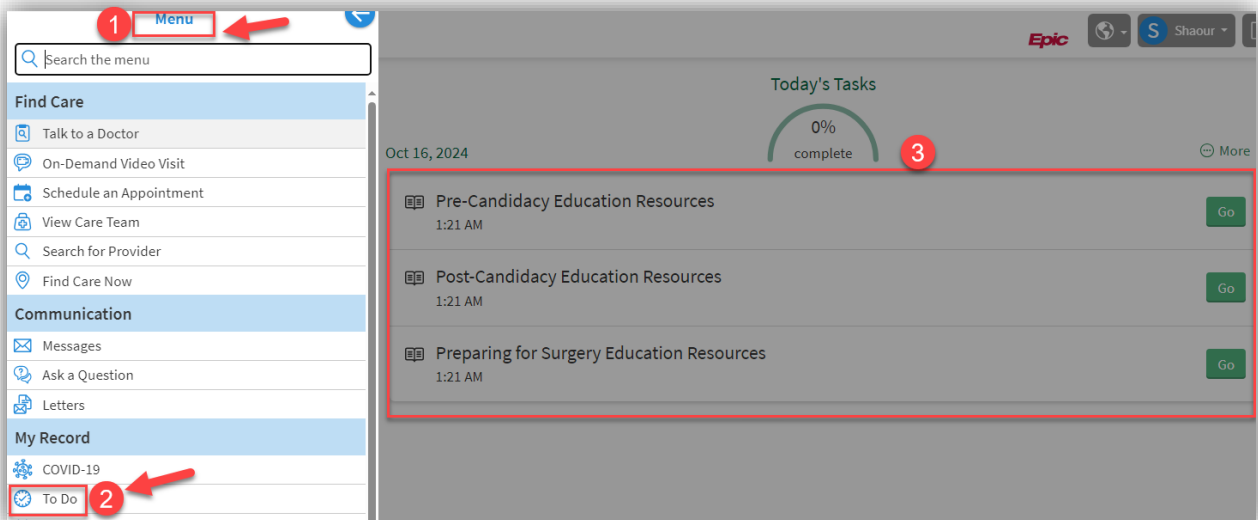

Let's get started.

1. Once logged in to MyChart, Cochlear Care Companion notifications can be found as shown below.
2. To access the Assigned Tasks, click on menu (located at left top corner) or
3. Hit Menu with 3 lines on Mobile Device.

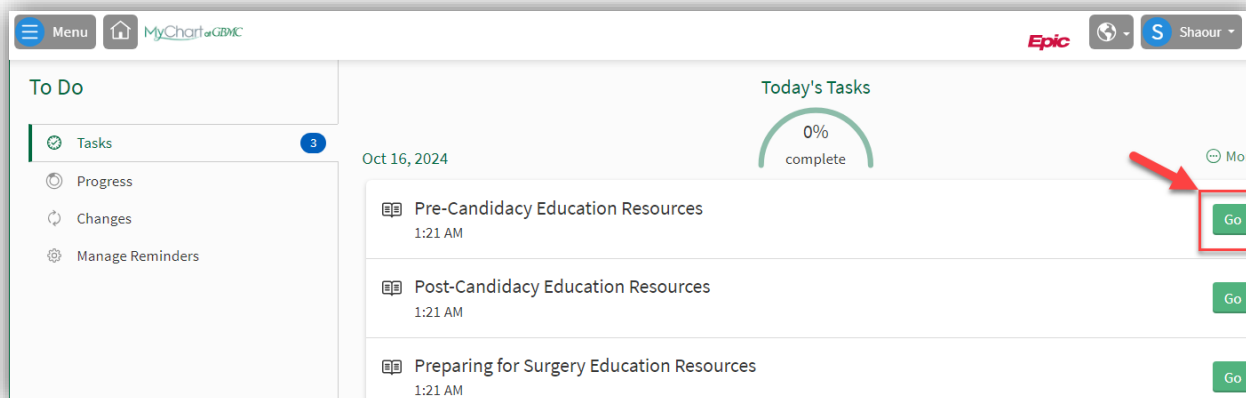

View To Do List on MyChart

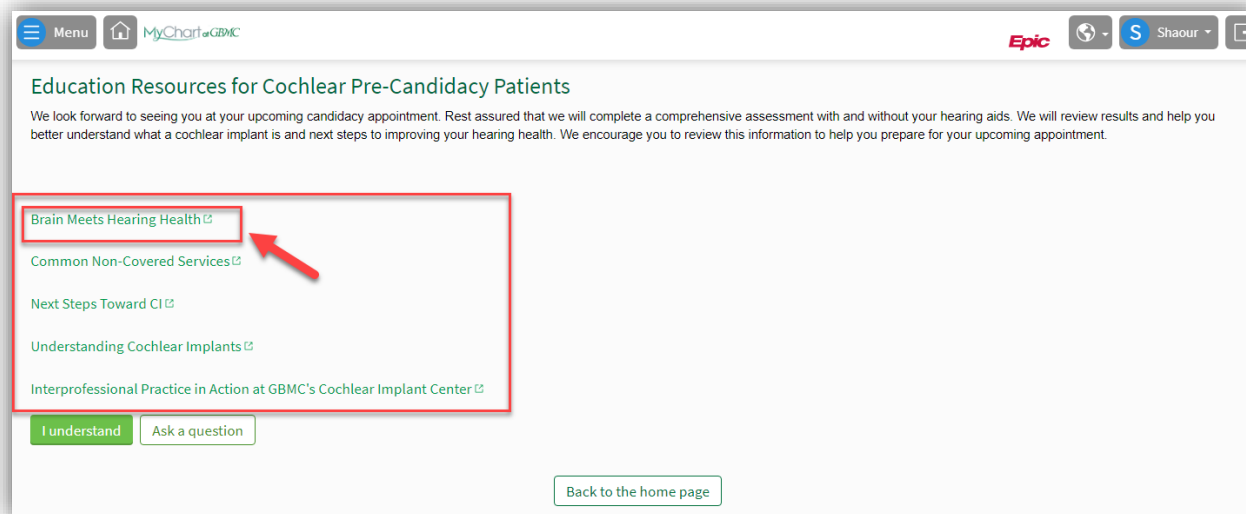

1. Click on "To Do" Under My Record.
2. All the assigned Tasks will Appear here.
3. All available task will be listed for your viewing.

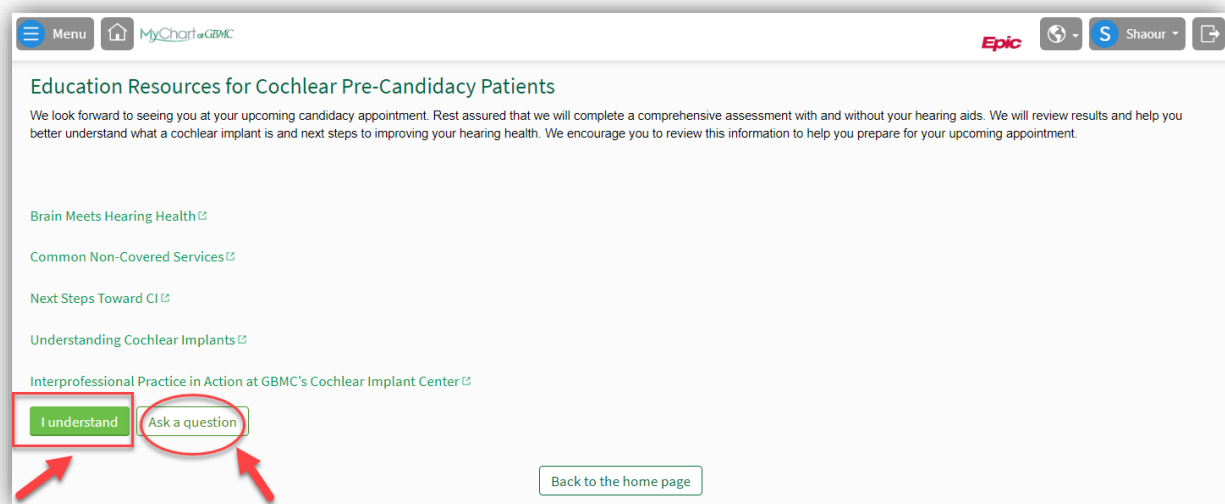

To do a Task, review the list and Click “Go” Button and it will take you to the Task.

- Depending upon where you are in your cochlear implant journey, you may find several Educational Resources for your review.
- By clicking go for each individual task, you will be able to view all the recommended information sent directly to you by your provider.

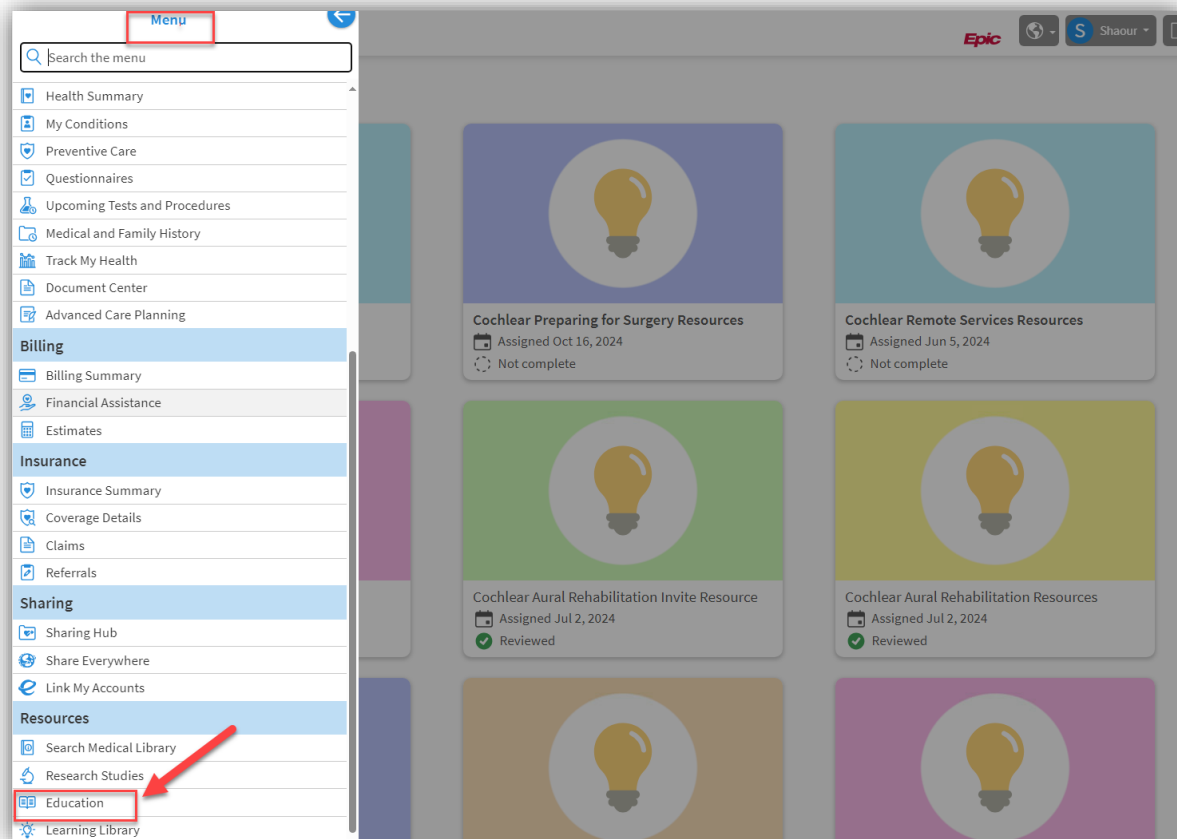

- Once you have reviewed the material in its entirety, please select **I Understand** or **I Have Questions** buttons to express your understanding of the material.
- If you select **I Have Questions** you can send any questions you have to a member of your care team.

Education Resources Library:

Your library is located in “Education” under My Record in MyChart Menu

- Here you will find all the recommended resources in one location.
- We encourage you to return to the education library for review as needed.

You may also visit <https://www.gbmc.org/services/cochlear-implant-center/cochlear-implant-journey> to view these materials or share this link with your support system.
